Native Instruments Maschine/S4/S8/X1

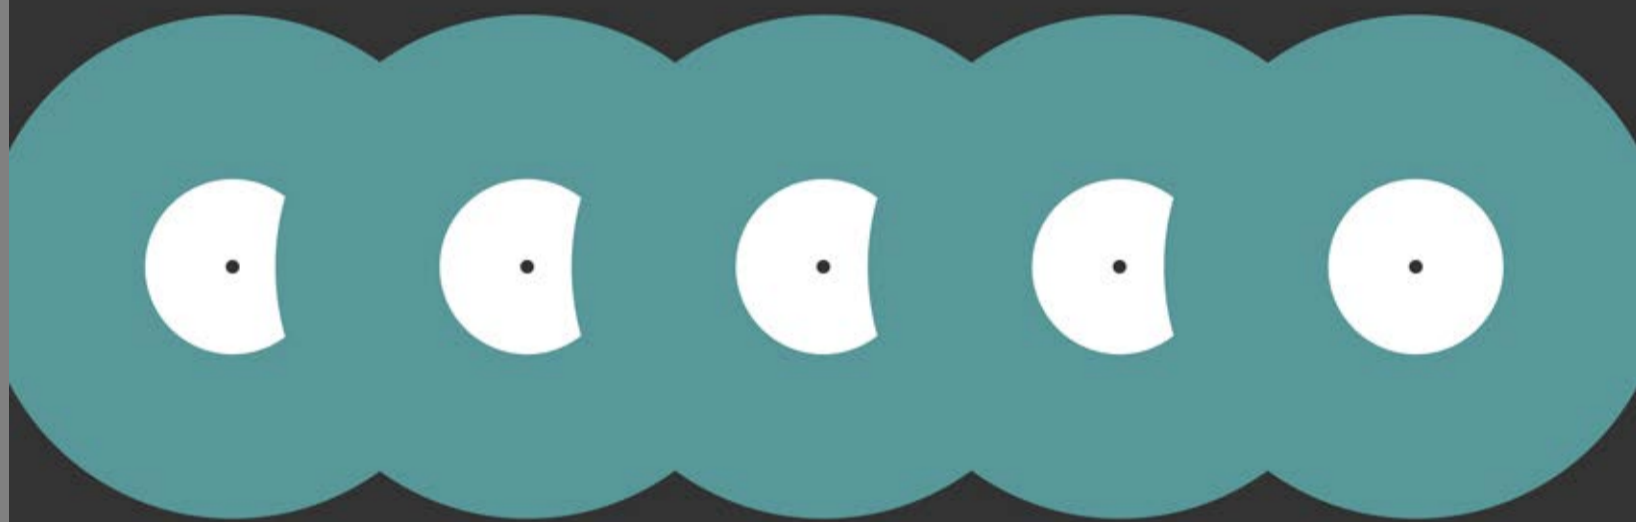

Biography

Music has always been a big part of Leo Sargon's life, from attending a specialised music school at the age of 6, to graduating with a master's degree from the London collage of music. Classically trained to play the piano, alongside his love for HipHop and House Music, Leo started producing music and DJing at university nightclubs in England, which then landed him a residency at the renowned Wellington Club in Knightsbridge, London.

From London through out Europe, Leo Sargon keeps the dance floors moving with his ear for great music. Leo learned his cuts and scratches working at London's quintessential west end hot spots and chic Mayfair nightclubs. From these experiences, Leo has gone on to rock the decks at world-famous events from DJ appearances at the Brit Awards After Party and BAFTA After Party to a VIP Parties with Manchester City FC to performing with artists like Tyga and Yo Gotti. Sargon's impressive DJ style is eclectic and energetic, and he is passionate about bringing his skills to places looking for a fresh and fun professional DJ. "I love to mix genres and play everything from mixing Bill Withers - Ain't No Sunshine with Jay Z and it works! and appeal to everyone at the club."

"You have to understand people, to understand what they want and relate to it, that's how you make sure they have a good time. I always have a good time, coz I love what I'm doing"

Upon returning from his summer tour around Europe, Leo currently resides in London, holding residencies at three of London's hottest clubs including Tape London, working at his London studio, writing for X-Factor semi finalists, newly signed major record company artists, collaborating in the studio with the likes of Florence & The Machine amongst others and working on his own sounds and developing his own style which an EP is aimed to be released in 2018.
